

Introduction

When storing high volumes of suspension filing, you need cabinets that are built tough - but are designed to reduce workplace risk. The Lateral Drawers are fitted with ATSS - our special Anti Tilt Safety System, so you know your staff are safe.

More than just tough and durable - these rigid chassis cabinets are designed to seamlessly integrate with any office fitout. Our range of colour options ensures you get the best results.

Features

- Heavy duty telescopic ball bearing runner system allows drawers to fully extend outside the cabinet body, providing easy access to files at the rear
- Smooth and positive locking system
- Secure locking system provides peace-of-mind that items stored will be kept safe
- Full height box drawers provide utmost protection and maximise the space available for file storage
- Safe anti-tilt locking mechanism ensures that only one drawer is accessible at any one time
- Durable oven baked powder-coat finish with corrosion resistant metal treatment
- Uniformly distributed load capacity of 60kg per drawer
- 10 year warranty
