Quiet efficiency.

Every library needs a system.

Precision Library Shelving 2 is a cantilever, post base, or wall mounted, system designed to discreetly display and store all forms of library content.

Features:

- An extensive range of accessories are available to solve a diverse array of library display and storage requirements.
- The modular design of the system facilitates easy expansion and / or reconfiguration.
- Clip-together construction makes installation and relocation quick and easy.
- Steel construction for complete strength, stability and rigidity.
- Powder coat finish for durability.
- Shelf carrying capacity tested and rated to AS2273-1979 provides peace-of-mind.
- End panels define library sections and can be used to accept indexing.
- Timber dress panels can be fitted for custom fitouts.
- Slotted posts and wall-channel allow easy adjustment at 25.4mm increments.
- Optional overhead braces can be fitted to provide anti-tip security.
- 10 year warranty – conditions apply.

Shhh... for shelving.

Relaxing while researching.

A place for everything.
Everything in it's place.

Shelving integrates perfectly with surrounding furniture.

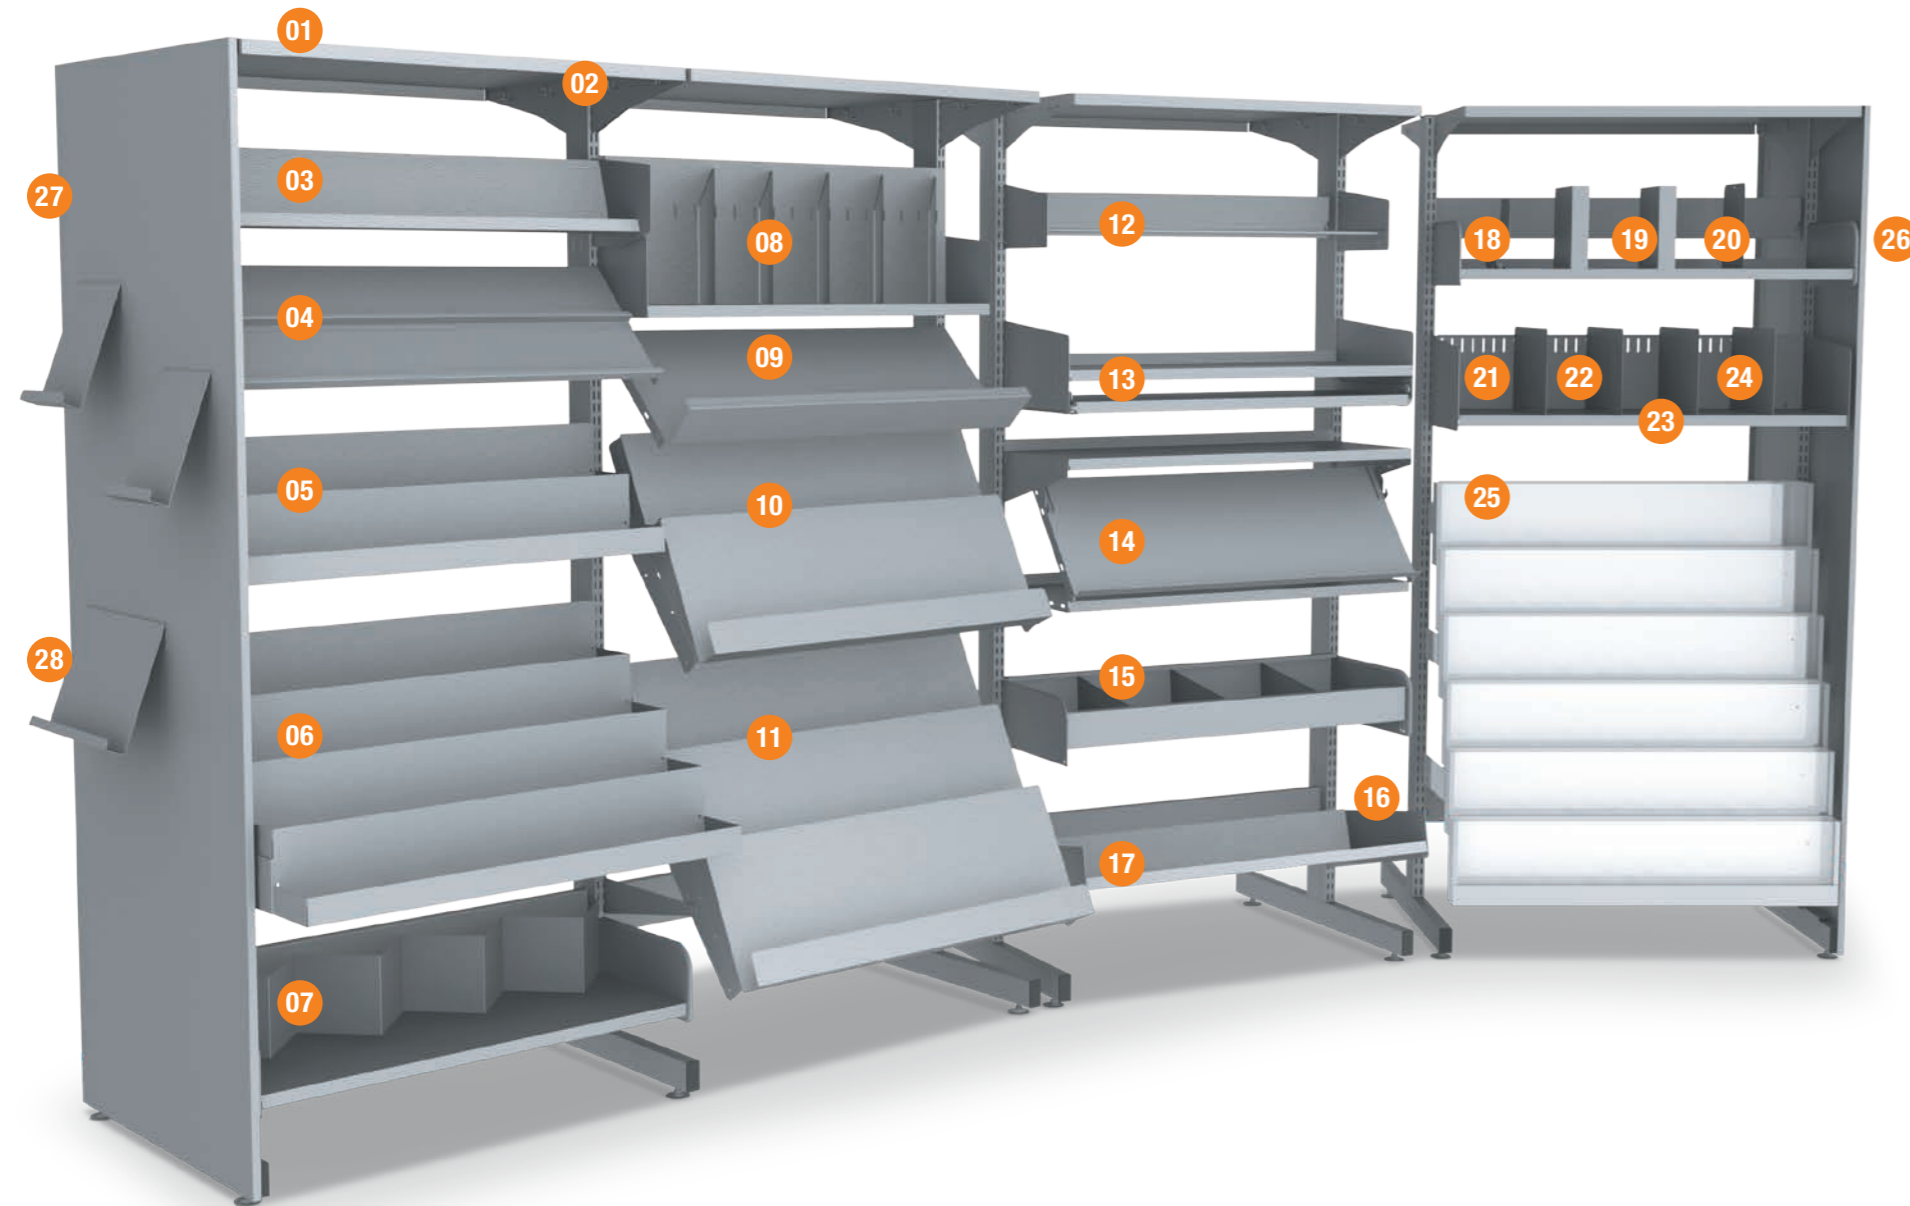

Low height units provide a ready reference surface.

Combination of unit heights.

Accessory range.

An extensive range of accessories are available to solve a diverse range of library display and storage requirements.

01. Canopy shelves

Canopy shelves provide protection from dust, and at lower levels act as extra display space.

02. Underslung endplates

Use for canopy shelves. One pair of end plates required per single faced shelf, two pair required per double faced shelf.

03. CD/DVD shelf

An angled shelf unit for the display (spine out) of CD's or DVD's. The back slope helps to keep the product on the shelf.

04. CD/DVD display shelf

An angle display shelf with mid point horizontal ledge to provide 2 levels of CD or DVD display.

05. CD/DVD display rack - 2 tier

A range of display options which can be used together or individually to effectively display the latest range of multi-media titles.

06. CD/DVD display rack - 4 tier

A range of display options which can be used together or individually to effectively display the latest range of multi-media titles.

07. Zig zag shelf display

This stand sits onto any standard flat upstanding shelf and provides an attractive display for paperbacks, while promoting ease of selection; ideal for displaying new releases.

08. Selecta shelf

A further option for displaying magazines or periodicals, up to 14 clear angled perspex dividers create spaces for 15 easily accessible titles to be displayed and protected.

09. Magazine shelf

A sloping display shelf with reinforced 100mm upstand front for display of bulk magazines and periodicals.

10. Magazine display shelf - 2 tier

A fixed multi-tiered angled shelf unit for the display of magazines.

11. Magazine display shelf - 3 tier

A fixed multi-tiered angled shelf unit for the display of magazines.

12. Hanging bag rail

For storage of 'coat hanger' style hanging storage bags.

13. Pull out reference shelf

A pull out work surface that is generally used as a temporary reading or reference space.

14. Hinged shelf

Display current magazines and periodicals on a 'lift up' sloping shelf, whilst storing back issues on a flat shelf behind.

15. Browser bin

Complete with adjustable dividers, browser bins are ideal for 'face out' storage and display of items such as picture books.

16. Uptilt endplates

Angled endplates set to a 15 degree pitch, used with uptilt shelves. One pair of end plates required per shelf.

17. Uptilt shelves

Designed for easier viewing and access to books at lower levels, these shelves tilt upwards at an angle of 15 degrees.

18. Stayput book support

Bookend features non slip rubber feet, preventing stacks of books from moving.

19. Bookshelf indicator

Bookshelf indicators sit over the front edge of a standard flat library shelf and used to separate library categories. Applied vinyl graphics can be added to the front spine to indicate specific categories and ranges (alphabetic or dewey decimal).

20. Bookend

An 'L' shaped bookend provides sturdy support for any size book.

21. Slotted shelf endplates

Endplates to match the overall height of the slotted shelf unit. One pair of end plates required per shelf.

22. Slotted shelf back

A slotted back panel which is used in conjunction with a slotted shelf. Slots punched to 25mm adjustments.

23. Slotted shelf

A slotted shelf which is able to accept steel shelf dividers when slotted shelf back is used. Slots punched to 25mm adjustments.

24. Slotted shelf divider

Adjustable steel divider.

25. Magazine waterfall shelf - 6 tier

Multiple vertical shelves with acrylic fronts for mass display of magazines.

26. End panels - plain

Attached to the end of shelving runs, plain end panels are used to define library sections, identify aisle contents, or simple to provide aesthetic relief.

27. End panels - display

Attached to the end of shelving runs, display end panels are used to define library sections, identify aisle contents, display material, or simply to provide aesthetic relief. The vertical slots are designed to hold standard 600mm wide shelving and accessories, whilst the circular punchings accommodate angled display shelves.

28. End panel display shelf

An angled display shelf that clips into the circular holes of a display end panel.
